my mind as someone who is truly dedicated to the students and parents years at Lausanne. The teachers are wonderful and across the board are just excellent!!! 2) Positive Environment- I really like the "Lausanne Way" and how there is an attitude and goal that "we are a family." I have never heard my son say anything about bullying or an attitude that teachers don't care. It feels like a tight knit school that has a lot of school pride and spirit!

- Forward Thinking- I feel that Lausanne keeps itself on the edge of the future for the kids. There is so much information provided about colleges, how to prepare, talking to the kids and involving them and the parents in "what is ahead". All the care and thought about the trips for Summer, the retreat in the beginning of school. You all REALLY try to get the kids thinking about more than just going to class- but you are thinking about the "whole child". Also love the advisor that is so closely tied with the children.
